**SUPPLEMENTARY INFORMATION:**

First, Plaintiffs allege that EPA failed to issue a finding of failure to submit for state implementation plans (SIPs) addressing reasonably available control technology (RACT) for volatile organic compounds (VOC) from sources covered by the 2016 Oil and Gas control techniques guideline (CTG) for the 2015 ozone National Ambient Air Quality Standards (NAAQS) for states and areas listed in the First Amended Complaint within six months after the SIP due date. Second, Plaintiffs allege that EPA failed to take final action to approve or disapprove, in whole or in part, Oil and Gas CTG SIPs for the 2008 NAAQS submitted by various states for the nonattainment areas listed in the First Amended Complaint. The proposed consent decree would establish deadlines for EPA to take specified actions.

## **II. Additional Information about the Proposed Consent Decree**

The proposed consent decree, which would fully resolve the current lawsuit cited above filed by the Center for Biological Diversity and the Center for Environmental Health, would require the EPA to take action under the CAA to make a finding of failure to submit for SIPs addressing RACT for VOC from sources covered by the 2016 Oil and Gas CTG pursuant to 42 U.S.C. 7410(k)(1)(B) for the 2015 ozone NAAQS for certain states and areas as listed in the proposed consent decree (Pennsylvania and New York), unless the state provides the SIP submission and it is deemed complete prior to EPA issuing the finding. The proposed consent decree would also require the EPA, pursuant to CAA sections 110(k)(2)–(4), 42 U.S.C. 7410(k)(2)–(4), to take final action to approve or disapprove, in whole or in part a SIP submission addressing the 2016 Oil and Gas CTG submitted by California to address various areas as listed in the proposed consent decree.

Under the terms of the proposed consent decree, EPA shall sign a notice or notices finding that the states identified as such in the consent decree have failed to submit a SIP or SIP revision addressing RACT for VOC sources covered by the Oil and Gas RACT CTG for the 2015 ozone NAAQS for the nonattainment area or state listed in the proposed consent decree by the established deadline, unless the state provides the SIP submission and it is deemed complete prior to EPA issuing the finding. In addition, under the proposed consent decree, EPA shall sign a notice or notices of final rulemaking to approve, disapprove, conditionally approve, or approve in part and conditionally approve or disapprove in part, the Oil and Gas RACT CTG SIP

submission for the areas as listed and identified as such in the proposed consent decree by the established deadline.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
